

## SUMMARY

This Pelesys course is an instructor led program and presents aircraft systems in detail, in accordance with Transport Canada CARS 566 requirements. The course includes complete descriptions of all system Avionics / Airframe / Powerplant systems. The course combines the best of traditional lecture based instructional methods with the latest Computed Based Training technologies.

The course covers the B777 family of aircraft including the -200LR and 300ER models powered by GE90 engines.

The course is conducted in English.

This course may be conducted at any of our facilities or at our customer's facility.
