

SUMMARY

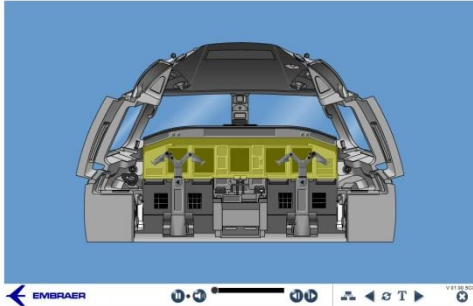

This Pelesys course is an instructor led program and presents aircraft systems in detail, in accordance with Transport Canada and EASA Part 147/66 requirements. The course includes complete descriptions of all system Avionics / Airframe / Powerplant systems. The course combines the best of traditional lecture based instructional methods with the latest Computed Based Training technologies. This course is offered as either a Transport Canada Approved Type course or as an EASA Part 147 B1.1 courses.

The course covers the A320 family of aircraft including the Embraer 170-100/200 (170/175) with CF34-8E engines.

The course is conducted in English.

This course may be conducted at any of our facilities or at our customer's facility.
