

SUMMARY

This course provides a complete overview of Dangerous Goods practises and procedures, including Definitions, Limitations, Undeclared Dangerous Goods, Provisions for Passengers and Crew, and Emergency Procedures for No-Carry Operators. Special emphasis is placed on the Labelling and Marking, and Recognition/Identification of Dangerous Goods shipments so that No-Carry Operators confronted with goods that may have been presented for shipping or have been placed on the aircraft in error can be properly identified, handled and reported.

The course is based on the 61st Edition of the IATA Dangerous Goods Handbook. The included lessons meet the training requirements of the ICAO Technical Instructions and the IATA Dangerous Goods Regulations (DGR) - Category 17

TARGET POPULATION

The Pelesys Dangerous Goods course is designed for flight crew members, loadmasters, load planners and flight operations officers/flight dispatchers requiring initial or recurrent training in the transportation of dangerous goods by aircraft for No Carry Operators.
