

SUMMARY

This course provides an overview of Dangerous Goods practices and procedures, including definitions, limitations, classification, and use of tables, and labelling and marking. Special emphasis is provided on undeclared or hidden items and provisions for passengers and crew.

The course is based on the 58th Edition of the IATA Dangerous Goods Handbook. The included lessons meet the training requirements of the ICAO Technical Instructions and the IATA Dangerous Goods Regulations (DGR).

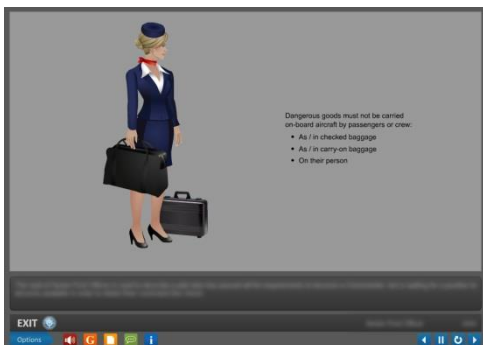

TARGET POPULATION

The Pelesys Dangerous Goods course is designed for airline cabin crew requiring initial or recurrent training in the transportation of dangerous goods by aircraft.
