

SUMMARY

This course covers the basic principles of flight operations in Reduced Vertical Separation Minima (RVSM) airspace.

The course includes operational requirements for aircraft and flight crews, addresses differences for operation in Metric RVSM Airspace and outlines procedures for no-RVSM aircraft.

TARGET POPULATION

The Pelesys RVSM course is intended for experienced Airline Pilots and Flight Dispatchers requiring initial or recurrent RVSM training.

REGULATORY COMPLIANCE

- ICAO / EASA / FAA / Transport Canada
- Maintain compliance with IOSA standards
