

SUMMARY

This course covers the operation and use of Traffic Alert and Collision Avoidance Systems (TCAS). The course emphasises operation of TCAS equipment and the flight procedures that are required for response to TCAS Traffic Advisory (TA) and Resolution Advisory (RA) warnings. Information relating to TCAS II version 7.1 is included in the course.

This course is available in three versions; one version describes conventional (generic) equipment installations, while the other versions describe (respectively) typical Airbus and Boeing displays.

The course is available in versions for standard, A330, B737 and B777 aircraft, showing aircraft instrumentation for each type.

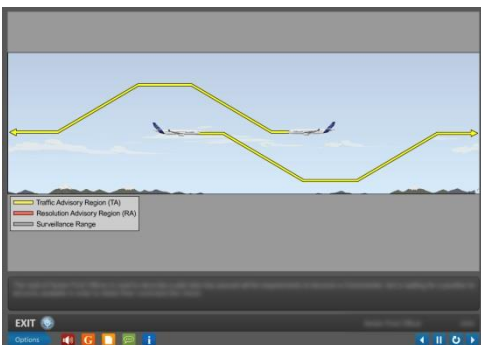

TARGET POPULATION

The Pelesys TCAS course is designed for experienced Airline Pilots requiring initial or recurrent training.

REGULATORY COMPLIANCE

- ICAO / EASA / FAA / Transport Canada
- Maintain compliance with IOSA standards

Versions Available:
**Standard, A330,
B737, B777**

Course Length:
1 hr 00 min
